
Title: Quest of the Avatar 2

Author: Hephaestus

After caring for the
orc in Yew, I decided
to stop and rest. I have
only 4 mandrake left,
so I will only use
those in an
emergency. I saw the
good Nortin asking the
red Lord Dakken
Hellfire, if he could
kill him to gain
noto. Then I saw
the dastardly Cyril
RedDawn, Dala Ton,
and Boulange. Also
Glamis, a recruit with
DFG. While I
remained hidden Doom
Guard rode by on
horse back.
I will rest a few more
minutes, and then
head out. 36N31W I
hear footsteps.....
Very strange. I have
come to a place where
there are 3 wandering
healers standing
together. I stood with
them and fit in well.
A fourth healer
walked up and stood
behind me. I can see a
large building blocking
the road about 100
feet southeast of me.
Animals are
everywhere. This
seems a special
moment. 30N42W
I came upon the good
GRYPHON defending
himself against the
orc Sornaraugh. I
attempted to heal
GRYPHON as he was
badly injured my
first attempt fizzled,

but my second was
successful. He
defeated the orcish
fiend. I now have two
mandrake left.
13N46W I just
crossed the road to go
through a thicker
section of forest.
realizing I had not
done so after my last
battle, I cast Flam
Sanct on myself. I
then heard a spell fiz
for someone else.
Thinking it might be a
magic attack, I quickly
hid. After a few
moments, the good
Moses passed very
close to me. I
remained undetected.
I will continue in a
moment. I have
noticed, that I do not
hear as well hidden.
Just jumped by a
ghoul. My Pdoll was
a little off screen and
I couldnt get my axe
eeuqipped quickly
enough... I finally did
and we fought. I was
down to 1/3 of my
health, and ran to
heal. The ghould
interrupted my In Vas
Mani. I ran further
and read the spell
from a scroll. I again
wielded my
two-handed axe, and
jostled for position to
meet the fiend. I was
still not fully healed,
only at 2/3, but I
fought just the same.
A mongbat jumped in
the fray and I split
him in to two pieces
my first shot. I then
attacked the ghoul and
finally beat him into
the ground from
which he came. I am
down to less than 5%
(6hp) of my life
force. I have hidden

to heal. I hope I make it
to trinsic. 6N38W
Attacked by a giant
spider. Fought it
well. It poisoned me.
the good glorianna
healed me back to 2/3
life. I then cast An
Nox to remove the
poison. I thanked her.

I must rturn to her
when this is over, and
give her a token of
thanks. The red
Golden Axe came up
talking nice. Must be
a thief. He was in res
robes. glorianna ran
at the sight of him. I
took to her example.

Now hiding and
resting. Time to eat.
8S29W Just as I
healed to 90% life, a
headless came by
about to attack a
traveller. I attacked
him and took no hits.
This was an easy kill.

He decided to
contribute a little gold
and a biscuit to my
quest. Saw Sir
Slaughter fighting a
zombie. I healed him
to help a little. Then
Red Lady Angel came
up with a horse
following. She passed
on by. She was a
member of guld
FEAR. Sir Slaughter
called me Friend, and
said there were few
around. I had just
tangled with a grizzly
to see how I would do.
WOn't do that without
armor again.

I also see Moses
fighting a goat with
his bow. 23s27w
